Your Patients and Hormone Replacement Therapy (HRT): Common Conditions, Quality Compounding & Dosing

Wednesday, January 26, 2022 | 6:30 pm ET

Learn the evidence-based science and compounded therapy information you need to know for hormone patients. Designed for practitioners, this free, live presentation will provide information on hormone replacement therapy and options for more successful female patient outcomes. Learn about common conditions, hormone testing, and dosing of estrogen and progesterone; as well as how to prescribe compounded options with confidence. A live Q&A with the speaker is included.

FEATURED PRESENTER

Sara Hover, RPh, FAARM

PCCA Clinical Compounding Pharmacist

Sara has been a compounding pharmacist for more than 20 years and joined the PCCA Clinical Services team in June 2013. Before joining PCCA, she was the owner/pharmacist of Creative Compounds in Prosper, Texas, an independent compounding-only pharmacy that focused on women's health and nutrition. In addition to her expertise in HRT, Sara possesses a vast knowledge of

homeopathics, herbal and vitamin supplements. Sara obtained her Bachelor of Science in pharmacy from the University of Texas at Austin in 1994. She is a lifetime member of the University of Texas College of Pharmacy Alumni Association.
